## Felipe González Guardia

### Industrial Design Engineer

Product Designer with an engineering background, focused on understanding user needs and transforming them into **scalable, high-impact solutions that meet both user and business needs.**

My work is driven by **strong communication** and alignment across teams, enabling collaboration between stakeholders, designers, and technical roles. I naturally build strong working relationships, helping translate complex requirements into clear, actionable solutions.

I take ownership of end-to-end execution, from problem definition to implementation, and thrive in fast-paced, multidisciplinary environments. I am highly **results-oriented**, consistently working to deliver solutions that are not only usable but strategically valuable.

### Core Strengths

- Leadership in cross-functional environments
- Strong problem-solving and structured thinking
- Effective decision-making under pressure
- Clear, assertive, and effective communication across stakeholders
- Clear and assertive communication
- Fast adaptability and continuous learning

## Experience

### Walmart (CAM Region)

#### Senior Product Designer (UX/UI)

- Grew from mid-level to senior role, taking ownership of complex, cross-functional initiatives
- Designed systems across Supply Chain, Finance, HR, Store Operations, and Data to improve visibility and decision-making
- Identified system-level gaps and reframed problems to align with real operational needs
- Delivered solutions for asset tracking, expense control, and pallet scanning processes
- Replaced manual workflows with scalable, structured digital systems across stores, plants, and DCs
- Defined UX/UI methodologies and ways of working across teams and stakeholders
- Introduced AI-assisted workflows to improve design efficiency and team processes
- Mentored team members through training, support, and knowledge sharing
- Collaborated with operations, finance, and leadership to align solutions with business goals

#### Impact:

- Reduced operational friction and improved efficiency across key workflows (up to ~80% fewer errors and ~60% faster execution), while minimizing support requests and manual incidents (up to ~90% reduction in support tickets across implemented systems)
- Returnables: Contributed to approximately \$1M in annual savings by improving tracking and reducing container loss
- Pallet Label Scanning: Improved product availability and inventory control, positively impacting ~\$2M in on-shelf availability, ~\$300K in inventory deviation, ~\$25K reduction in "merma", and increasing store performance (+2 IP points)
- Store Expense Control: Enabled structured financial decision-making, targeting ~\$500 annual savings per store (~\$45K across Costa Rica) with scalable impact of ~\$450K annually across Central America

## Mascotería Global / Expomascotería MG

### Project Director

- Led end-to-end execution of large-scale events across Costa Rica
- Managed cross-functional teams across design, marketing, and operations
- Designed experience strategies to increase engagement and sponsor value
- Optimized internal processes to improve efficiency and scalability
- Directed on-site production, ensuring alignment between execution, audience experience, and business goals

## GMK Dynamics

### Co-Founder

- Led product and design direction across branding, software, and UX/UI services
- Delivered end-to-end solutions for international clients
- Translated business needs into structured, scalable design solutions

## Boston Scientific

### Packaging & Labeling Engineer — Urology Division

- Delivered EU MDR compliance projects aligned with regulatory and operational requirements
- Coordinated across Manufacturing, Quality, and R&D teams under strict timelines
- Managed complex processes in highly regulated and high-pressure environments
- Ensured accuracy and alignment with quality and compliance standards

## Additional Experience

### Boston Scientific — Engineering Intern

- Supported process improvement initiatives across manufacturing and quality teams

### CWT (Facebook Division)

- Managed high-volume client communication in English (C2 proficiency)

### FEITEC — Tecnológico de Costa Rica Student Federation

- Designed communication and marketing campaigns across multiple campuses

### Freelance Designer

- Delivered branding, packaging, and digital design solutions for multiple clients

### iTEC Kolbi Competition (3rd Place)

- Developed a user-centered solution for accessibility-focused mobility

## Tools and Methods

### Design & Prototyping

Figma, AI-assisted design tools (Claude+Github), FigJam, Adobe Creative Suite, motion and video editing

### Research & Validation

User testing, usability analysis, information architecture, journey mapping, wireframing

### Product & Delivery

Jira, Confluence, Miro, cross-functional workflows, Agile methodologies

### Data & Strategy

KPI definition, Excel-based analysis, decision prioritization, performance tracking

### Technical & Collaboration

GitHub, responsive design, 3D modeling tools, front-end fundamentals, implementation constraints

### Project, Delivery & Strategy

PMP Certified, stakeholder management, project planning, cross-functional alignment, execution strategy

## Certifications

- Project Management Professional (PMP) — PMI  
*Advanced certification in project leadership, stakeholder management, and delivery execution*
  - Scrum Master Certified (SMC) — CertiProf
  - Project Management Fundamentals (Boston Scientific)
- 

## Education

- Industrial Design Engineering (Bachelor's Degree)  
*Tecnológico de Costa Rica*
- International Baccalaureate (IB Diploma)  
*The European School — San Pablo, Heredia, Costa Rica*

## Languages

- Spanish — Native
  - English — C2 (Full professional proficiency)
  - Portuguese — B2 (Certified)
  - French — Intermediate conversational
- 

## Personal Interests

Fitness and training, 3D printing, and team sports including soccer, volleyball, and table tennis

---

## Leadership & Community

- Participated in Techo initiatives, supporting annual fundraising and construction of housing solutions for underserved communities
- Volunteered for three years at a local nursing home in San Pablo, assisting in community support and care activities
- Contributed to conservation efforts in Pacuare, Costa Rica, supporting sea turtle protection through night monitoring during nesting season
